

## RINGING RECOVERIES

Key to symbols and terms used in the recovery list

### Arrangement of entry

Recoveries are arranged by species and within species usually by date of the recovery letter. Ringing details are given on the first line and recovery data on the second

### Ring number

A ring in italics indicates that the ring has been returned and verified.

### Age code

1 pullus; young bird ringed in the nest. A number in brackets beside this age code indicates brood size.

2 fully grown; year of hatching quite unknown.

3 definitely hatched during current calendar year.

3J as in 3, but bird still partly or totally in juvenile body plumage.

4 hatched before current calendar year - exact year unknown.

5 definitely hatched during last calendar year.

### Sex

M male

F female.

### Date of recovery

Where this is unknown the date of the reporting letter is given instead and is shown in brackets. A 00 in the date indicates that the exact day or month are unknown.

### Manner of recovery

v caught or trapped, and released with ring (controlled)

+ shot or killed by man

x found dead or dying

xA found long dead

( ) caught or trapped alive and not released, or released but with ring removed

B breeding when recovered

C recovered at colony

R recovered in roost

S Sight record (Colour ring)

/?! manner of recovery unknown.

---

## FOREIGN RINGED BIRDS RECOVERED IN MALTA

### Storm-petrel *Hydrobates pelagicus*
